VOL. VII.

RENO, WASHOE COUNTY, NEVADA, SATURDAY, APRIL 12, 1879.

NO. 11.

**Dr. Mintie's Nephreticum.**  
Dr. Mintie's Nephreticum works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder, and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back and loin are cured when all other medicines have failed.  
See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:  
"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."  
John A. Childs, Druggist, Second street, Portland.  
C. H. Woodward & Co., Druggists, corner First and Alder street, Portland.  
Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:  
"We regard Nephreticum as the best Kidney and Bladder Remedy before the public." All Druggists keep these medicines.  
For all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills.  
For Biliousness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills.  
For Fever and Ague, Use Dr. Mintie's English Dandelion Pills.  
Every family should keep the English Dandelion Pills on hand.  
Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended.

**MOORE'S SWAN & Co., 19 and 21**  
First street, San Francisco. Oil Paintings, Water Colors, Engravings and Frames. Velvet Frames of every description for cabinet pictures. These elegant goods are of the choicest description and are the latest productions of some of our most eminent artists. A free Art Gallery connected with the establishment contains the finest pictures in the city, and some of the finest in America. The latest productions of the best artists in the city go directly from the artist to this gallery. Visitors from Nevada are invited to inspect this fine collection. The display of Water Colors, Oil Paintings, Steel Engravings, Panels, etc., is very large and elegant. Artists' materials and every style of Frames to fill the largest order.

**Mr. Emrich, of Barnett Bros.,** received a large assortment of samples of all kinds of Dry Goods from one of the largest houses in San Francisco. Goods can be ordered by samples and they will be filled exactly and promptly. The samples consist of Dress Goods from 30 cents on, Cashmeres, Ladies' Cloth, Table Linens, French Calico, White and Light Figured Piques, Check Nanooks, and even Black Silk Velvet and Satin. Domestic Goods like Muslins, Sheetings, Spreads, Blankets, Ladies' and Children's Hosiery can be ordered verbally. The prices will suit the present contingency. All goods are very cheap. Mr. Emrich can be seen at G. J. Brookins' Variety Store, a few doors below the Reno Savings Bank.

**Having recently withdrawn from** partnership, I will open a store April 7th, on the east side of Virginia street, in the building formerly known as F. C. Chas. with a complete stock of millinery and fancy goods, consisting of all the latest styles, both from New York and San Francisco, thereby enabling me to sell cheaper than ever before. It is impossible for ladies purchasing goods from my store to get anything out of style, as my stock is all new to commerce with. The goods need only to be seen, they will tell for themselves. Orders for goods sent by mail or express will receive prompt attention.

**Money no Object.**  
Before calling on these one-horse shops, come and see me in regard to prices. If you want a few hundred feet of water pipe laid in the ground I don't charge anything for it, or if you desire five or six joints of 6, 8, or 10 inch pipe it costs nothing. All my men are men in good every circumstance, therefore charge me nothing for labor, and, in a word, I work for nothing, board myself, and find material. Money is nothing, custom is what I want.  
J. M. Thompson,  
mar2

**My object in opening in my present** location is to convince the public that although without competition I will furnish the same class of goods, at the same figure as before the fire. I have on hand first-class clothing, blankets, quilts, gaiters, furnishing goods, hats, caps, trunks, valises, &c. &c. Remember the White House, No. 138, Virginia street, corner of Second.  
mar1

**For the Sufferers.**  
S. Jacob returned this morning with a large and varied assortment of piece goods and tailors' trimmings, which he will make up at his usual low rates. Now is the chance for the sufferers to get good clothes at a bargain. He has put up a small building opposite Sunderland's boot and shoe store, on Virginia street, where he can be found.

## AN UNSEEMLY PERFORMANCE.

It is natural for men to become cal-  
loused to the tender sentiments of  
humanity by being constantly ex-  
posed, in a business way, to their in-  
fluence. The doctor cuts into the  
quivering flesh without a touch of  
nervousness. The lawyer draws up  
divorce papers just as he does bills of  
sale. The judge pronounces sentence  
without a sigh for the unhappy vic-  
tim. In all these acts there is no call  
for sympathy. It has to be done and  
"if 'twere done, 'twere well 'twere  
done quickly," but society demands  
that in these as in all other matters, a  
proper decorum be observed. The  
feelings of the sufferers and their  
friends should be respected. This is  
especially true of undertakers. The  
solicitude for proper treatment to the  
dead is universal. Even the Digger  
Indian feels it. If a man falls into  
the undertaking line who is by nature  
coarse, unsympathetic and rude he  
should spare no pains to overcome his  
natural propensities and conduct the  
last sad services due the dead, in a  
subdued, quiet and dignified manner.  
The spectacle witnessed last night by  
passengers on the overland train of a  
man entering the car and gathering  
up the body of a poor lady who died  
at the Summit, and carrying it to an  
express wagon containing a coffin in  
which he laid it, must have given a  
strong shock to their sensibilities. If  
her friends saw it they must have been  
very deeply grieved at the lack of re-  
spect shown. A more solemn and  
appropriate method should all by means  
have been employed. Proper as-  
sistance should have been in attendance  
to remove the body gently and de-  
cently without the disorder to cloth-  
ing and position which gathering up  
so would cause.

## AN UNDESERVED RESUKE.

The San Jose Herald refers to sev-  
eral editorial notes in the GAZETTE,  
when it says:  
Some of the Nevada papers are ad-  
vocating the new constitution for Cal-  
ifornia, because they hope, and not  
without reason, that its adoption will  
benefit their own state. Still we think  
it is hardly generous to thus take ad-  
vantage of our misfortunes. They  
might have an attack of Kearneyism  
themselves some day, and then it will  
be our turn. But then, their Kearneys  
are not likely to be treated so lenient-  
ly as ours have been—at the first hint  
of burning a city, or wading in blood,  
they would probably be clapped in  
jail, and kept there until they could  
behave themselves.

Neighbor, your sentiments are our  
own, but in the application we differ.  
It would be inhuman, monstrous for  
us to encourage, by word or deed, any-  
thing which would bring disaster to  
our own great mother state, for such  
you are to us in many ways. We  
doubt if there are two other states in  
Union so closely joined together as  
Nevada and California, notwithstanding  
the great natural barrier between,  
and the artificial grievances so often  
made much of. The readers of the  
Nevada papers will say that at no  
time has anyone of us advanced any  
encouragement to the Kearneys or  
demagogues, and the new constitution  
has been largely and intelligently  
criticized by the Enterprise, Chronicle,  
Renoist, Appeal, State Journal, (GA-  
ZETTE, and other papers. If we used  
Nevada gold to help the vote, or said  
things we do not believe, we would  
deserve censure, but if California  
passes the instrument, and it does  
drive men out who use money, and  
does discriminate against capital, we  
will get it if we can. It shall not go  
to Oregon, Arizona, or Chicago if we  
can bring it here.

## EDITORIAL NOTES.

George William Curtis in Harper's  
Weekly, is fighting the Grant move-  
ment with the keen logic of a power-  
ful mind, whose intellectual and politi-  
cal bias is opposed to that of the  
Grant party. But it is not likely to  
effect much. Curtis takes a lofty  
stand, and speaks from his elevated  
plane in the language of broad, com-  
prehensive, non-partisan statesman-  
ship, therefore his arguments over-  
shoot their mark, and fail to reach  
the understanding of the ordinary  
party man because they do not catch  
his sympathies. It is a little humili-  
ating to confess, but it is nevertheless  
true, that the dirty undercurrent of  
ignorance and partisanship often con-  
trols the stream of our politics.

"Geth" (George Alfred Townsend),  
the Washington correspondent of the  
New York Graphic, eulogizes Geo. C.

Gorkham, and praises the "tenacity" of  
his friendships. The tenacity of  
Coolie George's friendships did not  
forcibly impress his California friends,  
but his tenacity is seeking and hold-  
ing on to office is something wonder-  
ful.

A Democratic paper says: "The  
Democratic party is the only party  
that can justly lay claim to the proud  
title of consistency." We never said  
the Democrats were not consistent.  
Horace Greeley said the two cardinal  
principles of the Democracy were to  
"love rum and hate niggers," and  
they have religiously clung to that  
doctrine ever since we can remember.

The Enterprise says: "Sam. Davis  
is contemplating the writing and pub-  
lication of a book. To insure success  
he says he intends there shall not be  
a word of truth from preface to finish."  
He might have saved himself the  
trouble of that statement, for people  
only need know that Sam. Davis was  
the author to be aware of that fact.

The Sun shines scorching hot on  
Myser Cooper, of New York. Cause  
—the Major is trying to reform the  
police commission contrary to the  
Sun's ideas.

## LATEST NEWS.

The Senate was adjourned until  
Monday.

The insurrection against Turkish  
rule in Macedonia has again suddenly  
collapsed.

The Sultan of Turkey offers, as a  
short way of settling the Egyptian  
muddle, to depose the Khedive. It is  
reported that the latter is making  
warlike preparations.

The trial of Olive and his associates  
for the murder by burning at the  
stake of Ketchum & Mitchell is pro-  
gressing satisfactorily at Hastings,  
Nebraska. One of Olive's gang has  
turned State's evidence and the con-  
viction of the murderers seems cer-  
tain.

Speaker Randall yesterday an-  
nounced the standing committees of  
the house. Representative Daggett  
of Nevada, being not only a new mem-  
ber but one of the minority, is not  
given very conspicuous committee  
places. He becomes a member of the  
committee on census and committee on  
militia.

## Utilizing the Electric Light.

[From Dispatch to the Enterprise.]  
SMARTSVILLE, April 11.—The Ex-  
celior Water and Mining Company  
have just put into successful opera-  
tion in their Deer Creek mine the  
Brush patent electric light, the first  
ever introduced in a hydraulic claim.  
This light will enable them to work  
nights as well as days. Fifteen thou-  
sand pounds of powder was exploded  
this morning, preparing a large amount  
of rich gravel for washing. Big clean-  
ups will undoubtedly result.

BORN.

PREY—At Steamboat, April 11th, 1879, to the wife of T. H. Frey, a daughter.

JOTTINGS.

—Everybody says money is scarce.  
—The weather is delightfully warm and balmy to-day.  
—The snow has gone from the hills in this vicinity.  
—The town is dull in every respect, except in building matters.  
—The framework of the new Depot hotel begins to assume shape.  
—A second story is being put on L. Wintermantel's building. The framework is already up.  
—The district court has not been in session to-day, Judge King, having gone to Carson to try a case there.  
—To-morrow will be Easter and special services will be held in all the churches.  
—The iron front for Becker's and Steele Brothers' new building will arrive from Sacramento in a few days.  
—Twelve more carloads of railroad iron for the Southern Pacific went through this morning.  
—The trustees of the Agricultural society held a meeting this afternoon at the pavilion.  
—The readers of the GAZETTE who are fond of dancing should not forget Scott's soiree to-night. There will undoubtedly be a large crowd out.  
—An advertisement offering a house and lot for sale will be found in the 50-cent column. Apply to Stophar at the Ocean Spray.  
—The water has again been turned into the Orr ditch, and the water question settled once more. The whisky question, however, continues to disturb the impecunious thirsty ones.  
—Eddie Merrill, a boy of fourteen, was taken with a fainting fit this morning, at the foot of the stairs in the Odd Fellows' building, and fell against the wall, bruising the side of his face considerably.

BUSINESS NOTES.

O. Buckley is moving into his new store on Commercial row this afternoon. He has added greatly to his stock, and will hereafter keep everything pertaining to a first-class grocery store.  
Carroll Kilburn, the San Jose man and doctor, will return to that place this evening to remain there a short time. He will send his son up here to take charge of the business during his absence.

Sent Up.

John Doe was arraigned before Judge Bowker this afternoon for getting his hide full of whisky yesterday, and trying to turn the town into a two-four foot ring, with the intention of whipping the inhabitants en masse, and otherwise knocking the spots out of the peace and dignity of the state of Nevada. His lighting propensities will be circumscribed to the limits of the jail for a while.

Pinto Pokes.

The warm sun has started anew the favorite "aboriginal sport" of Pinto poker. The mahala gather in the sunny places and while the hours away with this seductive game, ever and anon dropping in cards, and making a grab for some stray ramble among the tangled sea weed of their coarse locks.

BILLDAD, THE SCRIBE.

The Trials and Tribulations That Come to the Sons of Man.

Now it came to pass in those days that there was among the disciples great joy throughout the land, for they said behold have we not gained a great victory in the land of the Mongolian inasmuch that we are no longer excluded from their borders, but we may send our missionaries unto them and teach them to worship the God of our fathers, and our God shall be their God. And many of the disciples forsook their homes and friends and straightway went into the land of the Mongolian. And they did labor with great earnestness.

AND IT CAME TO PASS after many days that the Mongolians began to say one to another, what manner of people is this that do come among us and de tell us of the freedom of their country, and do say unto us, come up with us into the land of our fathers and we will take thee into our halls of education, and we will give unto our own children. And some of them arose and went, and there was great joy among the Christians, for they said, we are not able to teach them in our own land with much less expense, and we may also be with our friends and kindred. And after many days these Mongolians began to write unto their people and to say: Behold this is indeed a great land and these be a goodly people, and do say unto us, these things write and say unto thy people behold our borders are exceeding great and we have much labor to perform.

NOW, THEREFORE, say unto thy people, come up brethren into our land and be unto us as servants, and we will give unto thee much gold and silver; and they wrote unto their people and told them all these things which had been said unto them. And straightway they began to come into the land of the Christians, for they said among themselves we be a great nation and there be many within our borders who can scarce provide for the necessities of life. We will go up unto this people and we will be unto them as servants, and we will get great gain, and after many days we will return unto our own land, and others shall be servants unto us, and we shall no longer be compelled to labor ourselves. And when they were come up into the land of the Christians they did much work for them, and did cook and wash for them, and on their highways and ditches and railroads, and did receive for their labor much less gold and silver than the people had been wont to pay, and there was joy throughout all the land.

NOW THESE MONGOLIANS were quick to learn and to understand the ways and measures of the Americans (for so these Christians were called) and they began to whisper among themselves and to say one unto another, are not these people a wicked and a licentious people? Now, therefore, let us send and bring up hither our slaves and our concubines, and we shall make much more money; and straightway they did so. And when they were come into the land of the Americans most of them did sojourne on the western shores in the parts called California and Nevada. And it came to pass during the reign of Rutherford, whose surname was Hayes, that these Mongolians had come to the land of the Americans in such multitudes that the cities of the west were much crowded and the people were much troubled, and began to murmur among themselves and to say one to another, behold these Mongolians to whom these Christians sought to benefit, and did labor so hard to bring them among us. Have they not become a curse unto us? For as much as they do live more cheaply than we can they are able to work for less wages and are content therewith.

AND MOREOVER, they are a clanish people, and do live by themselves, inasmuch that in all our towns and cities there is a portion called Chinatown; and they do talk their own language, and do wear clothing different from our people, and when they do come into our families to labor for us as servants they do steal from us and conceal the stolen goods in their clothing and carry them away to Chinatown. And they do many things which are abominations in the sight of our people. Now, therefore, let us arise and drive them hence that they may no longer annoy us. And straightway they went to work and did publish in the newspapers all manner of things which these strangers had done. But the people in the eastern part of the country, would not believe all these things, and said these people were much abused and lied about. Then the people of the West said unto their representatives at Washington: "Show forth these Mongolians, these moon-eyes, these heathens, in all their wickedness and abominations and adulteries, and cause that a law may be made which shall prevent more of them from coming here, and shall drive out these that are already here."

AND THEY DID SO, and there was great rejoicing in all the land of the West. Now when Rutherford saw what had been done in the halls of congress, he said: "Behold how great a wrong has been done unto this people, for they are not as has been represented by the people of the West, but are pure and innocent, kind, honest and industrious, and are a great blessing unto us as a nation and as a people. And more-

over have we not proclaimed unto all the nations of the earth that we be a free people and that whosoever will may come and make unto themselves homes and may enjoy the benefits of our country the same as if he had been born within our borders; and moreover have we not made a treaty with the chief rulers of this people which cannot be broken, lest, perchance, there be much trouble. And he said forasmuch as things be so, this law as passed by congress is unconstitutional, and for these reasons we will veto it, and straightway he did so.

Now when these Mongolians saw what the Chief Ruler Rutherford had done they rejoiced with an exceeding great joy, for they said he is our friend, yes, much more so; he is a friend to his own people.

But the Americans when they saw what had been done by the chief ruler, were exceeding wroth and they said weel weel weel unto this man for he is not true unto his own people, but has gone over unto these Mongolians. Now, therefore, we will not again have this man to rule over us forevermore, but we will put another in his place who shall be a friend to his own people and kindred.

TRUCKEE ITEMS.

[From the Republican of To-day.]

Nearly all the mills in the Truckee basin will be running to their fullest capacity this month. This is an extraordinary early season. The mills do not generally start up until May.

Mr. Nelson Martin is improving steadily, and it is now certain that his broken leg is uniting properly, and that he will have a good limb. He has suffered for some months, and has manifested extraordinary patience and fortitude.

Cold, bleak, stormy weather has prevailed during the past few days in Truckee. At times it snowed furiously, and the ground has been covered to the depth of two or three inches. Succeeding a week of warm, pleasant weather, this cold snap is exceedingly productive of colds, coughs, and attendant ailments.

Thanks to the efforts of Hon. J. P. Foulkes, the trout have passed the recent obstructions near Verdi, and are now at Camp 20. We learn this from J. D. Park, and also learn that the fishermen have pretty generally left Verdi and removed to camp 20. We call upon the gentlemen in charge of the ice works at this point to inspect the fish-ladder, and see that the trout are not prevented from ascending further.

Easter Sunday.

This is the Sunday of all Sundays in the Episcopal church. The anthems, the hymns and sermons, all point to the great fact of the Lord's resurrection. The ladies of Trinity church are making great preparations to celebrate the day in a most appropriate manner. A profusion of flowers have been received from below. Hanging baskets, pots of flowers, and a forest of floral offerings have been taken to the church, so that a beautiful display may be looked for to-morrow. There will be an early service with the celebration of the holy communion at half past 6 o'clock. The regular morning service with Easter anthems and Easter sermon will be held at 11 o'clock. The holy communion will be administered at this service also. In the evening at half past 7 o'clock, there will be the Sunday school festival. The programme will be as follows: Opening piece, "Christ is Risen"; prayer; carol, "Sweet Hath Arisen"; lesson; carol, "Christ Easter Bells"; address; carol, "Easter Day"; prayer and benediction. These carols are beautiful, the children sing them admirably and so the whole service cannot fail to be a grand success. If you never went to church before you should go to-morrow.

A Complete Establishment.

In going the rounds this morning a GAZETTE reporter chanced to drop into the magnificent new drygoods store of Gray & Isaacs, on Commercial row, who have just thrown open its doors to the shipping public. Piles on piles of new and costly goods crowded the shelves, and even invaded the counter. The splendid show cases were full of notions and jewelry, while in the rear of the store, rolls of carpeting of every shade and texture were heaped up in an immense rack. They have everything on their shelves and in their show cases from a spool of thread to a lace shawl. The stock has been so elegantly arranged that the general effect is very beautiful, and in every thing in strong relief the fine painting and graining which Updike and Clark have done on the counters and shelves.

Death on the Train.

The eastern-bound overland train brought in the corpse of last night Mrs. Montgomery, who had died at Summit, of hemorrhage of the lungs. She was coming here from Chico, and telegraphed her husband, who is a carpenter employed on the Depot hotel, yesterday to meet her at the train. It appears that she was well at Cisco, fourteen miles west of Summit, but was suddenly taken ill and died at Summit. Her husband had gone to bed, and left orders for the watchman to call him when the train came, but the watchman was unable to find his room. Consequently, when the train reached here, he was not on hand. The coroner was notified, but he said it was not necessary to hold an inquest. The remains were taken charge of by the undertaker until Mr. Montgomery could be found.

More Beef for California.

Ten carloads of beef cattle were shipped yesterday evening to the Oakland stock yards, assigned to Hayes, Carrick & Co. There were 185 head in the lot.

SOLD AGAIN.

What Ah Chouey's Attorneys Have to Say About the Statements of His Would-be Secretary.

EDITORS GAZETTE:—The communication published in this morning's Journal purporting to come from Ah Chouey is calculated to impress the public with the belief that it was written by his attorneys as a forlorn effort in his behalf. We wish to state that it or its outlines were written by a drunken bum, who, while serving out a sentence for a crime in jail, probably received his data from conversing with Ah Chouey. He is the same Kearney lecturer who was fired out of the GAZETTE office, as published in that paper last evening, and after receiving his rebuff from the GAZETTE men who refused to publish his article without our consent, he presented it to the Journal, who probably innocently published it without thinking how it would sound, or the position it might place us in regard to the matter. The article was written and published without our knowledge or consent, and although there may be nothing injurious to his case in the article, still, as every word dropped by a person placed in Ah Chouey's position is generally caught up and twisted against him, it is no more than right that his attorneys should be consulted before publishing everything that every miserable leaver may be pleased to put into his mouth and over his name. We are doing all that can be done for the man, as his attorneys appointed by the county, and if he hangs it will not be because we fail to present his case in its best possible light. When it becomes necessary to publish any statement from the defendant we feel ourselves competent to have it done in proper style, and do not require the assistance of any drunken tramp or jail bird.

Yours &c, WALDO & JULIEN.  
Att'ys for Ah Chouey.

PERSONAL.

R. P. Chapin, (Old Necessity,) who has been on a flying visit to Virginia City, returned last evening.

Senator Sharon, who has been visiting his constituents on the Comstock, has returned to his home in California.

Judge Bowker went to Steamboat for a bath this morning. Some of the attorneys were ill-natured enough to predict an increase of the crops in that vicinity in consequence.  
The wife and son of Hon. G. W. McCrary, secretary of war, arrived from Washington City last night, and laid over here until this morning. They left for Virginia City, where Mrs. McCrary has a brother residing.

Went Her One Better.

Two pious old ladies recently chanced to be passengers on the same emigrant train, and a constant rivalry was kept up as to who was the most humble and devout. They exchanged hospitalities back and forth, cooking their coffee and potatoes on the car stove, as is customary on the slow trains. One day, after a long war of words, they sat down together to their corn beef and boiled potatoes, when the hostess began to apologize for the potatoes as being very poor and almost unfit to eat. The other spoke up very briskly: "They are good enough. Plenty good enough for poor, sinful mortals. I only wish they were froze."

Artificial Stone.

I. T. Benham showed a GAZETTE reporter some artificial stone this morning which has every appearance of being a durable, cheap and handsome building material. The stone is manufactured by Mr. Benham himself, he having a machine expressly for the purpose of pressing it. It is a new invention, and Mr. Benham says he has made a great deal of it in Oregon and elsewhere. None of it, however, has ever been used in Reno, and Mr. Benham is trying to introduce it. It is about as cheap as brick, more durable and is a great deal handsomer. The natural color of the stone is white, though it can be manufactured in any color desired.

Methodist Episcopal Church.

There will be divine service at the M. E. church to-morrow at 11 A. M. and 7:30 P. M., Rev. C. McKelvey officiating. Subject of the morning sermon: "The Resurrection." In the evening a sacred concert will be given consisting of some of the finest Easter music and select recitations. Seats free; all are invited. Sabbath school at 1:30 P. M.

Easter Services at the Methodist Episcopal Church.

As it is Easter to-morrow the Methodist Church will be beautifully and tastefully decorated with flowers. Special services will be held in the morning, and a vocal concert will take place in the evening. The music has been thoroughly rehearsed, and it is expected that the concert will be a great treat to the lovers of vocal music.

Another Photographer Coming.

A. O. Gregory, of Bridgeport, New Jersey, has written friends here that he will come to Reno in a short time and will establish a gallery. Mr. Gregory comes with the expectation of making this his future home. Judging from some of his work, which was to-day shown a GAZETTE reporter, he is undoubtedly a fine artist, and for such a man, Reno presents a good field.

Shooting in Sacramento.

About half past four o'clock yesterday afternoon Lewis Stone, who drives the Capital House bus, leaped from his seat and seized his wife, who was passing down Fourth street, near the Odd Fellows savings bank, throwing her down and shooting her three times with a revolver. One shot passed through her left ear, another through the back of her neck, and the third through her right arm. There was talk of lynching Stone. He is said to be a very ugly man. His wife was divorced last fall on account of cruelty.

Well Fixed.

S. N. Davidson returned from San Francisco this morning. He settled with the insurance companies by accepting the full amount of his policy. He is well fixed for a start, and will make things hum when he gets to going.

To the Good People of Reno.

Having entered the field with the balance to contend for a share of the public patronage, it would perhaps be well at the start to state our claims to the above. I am not a sufferer by the fire, so claim no sympathy on that score. I believe it's the duty of the good people to give preference to old residents, provided all things are equal, but if Brown asks fifty cents for what Smith is willing to sell for twenty-five, on the grounds that he is loser by the fire and wants to get even, the trade will naturally go to the latter. Hence I say we have no claim on the people except on those who may wish to economize. If you wish to buy your wife a fine silk dress by all means go to Emrich. If you want a suit of fine clothes go to Nathan's or Abrams', but if you want a "goose yoke," rat trap or jack knife go to Yankee Dodge's, where a dollar will buy a basketful. Recollect goods just as square as though sold over a marble counter. A child that can lip out the names of the articles wanted, can buy just as cheap as an expert.

P. S.—Money will be refunded on all goods that do not prove as represented.  
YANKEE DODGE & CO.

To Everybody's Interest.

The old man with shaggy beard, the middle aged man with his ambrosia side whiskers, and the young man with a side part, will be interested to learn that Coleman & Peckner have fitted up one of the finest shaving saloons in the state, on Virginia street opposite M. Nathan's clothing store. Everything about the place is new and tidy, and these gentlemen have few equals and no superiors in this state as tonsorial artists. Call and see them. apr11

Opened at Last.

I. Fredrick has at last got fixed up in Osburn & Shoemaker's drug store. He has one of the finest stocks of jewelry and silverware ever brought to this State. Mr. Fredrick is a pioneer in this business in Reno, and as such is fully aware of the wants of the people of this vicinity. Call and see him, and you can be sure you will be well treated. apr11

A Pioneer in the Business.

If your watch gets out of order take it to I. Fredrick's, the pioneer jeweler of Washoe, and he will soon have it put in running order, and further, if you want anything in the jewelry line you can find a large and elegant stock to select from. He can be found in Osburn & Shoemaker's drug store, Commercial Row. apr11

For gold and silver plating, also clean plating, send it to the Pacific Electrical Works, Sacramento, Cal. All kinds of instruments repaired. apr11

Pacific Electrical Works, Sacramento, Cal., the cheapest place on the Pacific coast for telegraph and electrical supplies. P. O. box 382. apr11

Two Fire Proof Stores.

L. Wintermantel will add a story to the brick on Centre street and use it for lodging houses. The two rooms in the lower story, 24 by 72 feet, will be rented for stores. There is a good cellar under the whole building. apr11

Paints and Oils.

F. Bosch has received a big stock of Paints, Oils, Glass, Locks, Nails and all kinds of building material, which he will sell over than ever before in Reno. Give him a call. apr11

For Sale.

At the Reno Nursery, Brink, N. Y., 100,000 FRUIT AND SHADE TREES. I will sell hereafter by the hundred for cash, at the Nursery for one-half the usual price. STEPHEN CONNER, Proprietor.

For choice fresh candies, and the best cigars and tobacco, stationery, etc., go to Burdard & McClelland on Commercial Row, Reno, Nevada. apr11

Will Open.

W. Goeggel will open his watch and jewelry store in Jas. Chambers' building, on or about April 15th. apr11

Lachapelle's Saloon on Centre street, has constantly on hand a stock of the finest wines, liquors and cigars. apr11

Try those fresh oranges, lemons, dates, Sicily lemons and first-class apples at Burdard & McClelland's, Commercial Row, Reno, Nevada. apr11

JOTTINGS

— Plenty of fresh grub at Everett's. A lot came today.

— More railroad iron passed through yesterday for the Southern Pacific.

— Captain Bragg has a house to sell or rent. See 50-cent ad.

— Five good cigars for a quarter at Yankee Dodge's.

— The Pyramid lake fishermen come up in the United States district court in Carson to-morrow.

— People had to take a large proportion of dirt in their oxygen today on account of the wind.

— A competent lady desires a situation to do general housework. Apply at this office.

J. S. Gilson, real estate agent, advertises a commodious dwelling house for sale at a bargain, in the 50-cent column.

— Sonnet fever has about disappeared from the neighborhood, except the three cases on the meadows, two of whom it is hoped will recover.

— Mrs. Murray, landress, is prepared to do washing and ironing of all kinds at the lowest prices, either at her place, or out by the day's work.

— A fellow under the combined influence of whisky and general cussedness was rehearsing the Comanche war-whoop on Virginia street last night.

— The alfalfa fields south and east of town show a wealth of verdure. The late rains have started the alfalfa to growing at a rapid rate, and the crop promises to be large this year.

A Hail on the Boys.

Yesterday evening Sheriff Walker, Deputy Sheriff Chamberlain, and Constable Avery made a raid on the tramp encampment, just below the V. & T. bridge, and captured William Brown, James Murray, Frank Burton, Frank Jones, Jos. Wright, Thos. King, J. Johnson and R. Roe, the ubiquitous. They were arraigned before Judge Bowker this morning. They pled not guilty, and most of them demanded a jury trial. Their cases were continued over until 10 o'clock to-morrow.

Give Him a Chance.

Joe De-Bell has now located his shop in one of the most prominent places in town. He is a good workman, an honest gentleman, and a reliable citizen. Let him take the dust out of your watch.

Dental Supplies.

Dr. Thrallkill, an enterprising and thoroughly educated young dentist of Sacramento, has established a supply store in that city. The country dentists will find his stock first class. See ad.

Postponed.

The trustees of the agricultural society, at their meeting last Saturday, postponed fixing the premiums and arranging the appeal program until the 3d of May owing to the absence of Mr. Corey.

Unclaimed.

There are messages in the Western Union telegraph office for Edward Grannells, J. F. Walker and Antonio Granstruter.

EASTER AT TRINITY CHURCH.

The Most Beautiful Display of Flowers Ever Seen in Reno.

The finest floral display ever witnessed in Reno was that at Trinity church yesterday. It was beautiful in the extreme, and merits a detailed description. At the back of the chancel was a superb cross made entirely of apple and pear blossoms, with smilax interwoven. Below that was an anchor made of camellias and other beautiful flowers. This was a present to Mr. Jenvey from Mrs. Frank Thayer, now living in San Francisco. The communion table was neatly covered with a white cloth, and was trimmed all around with a

TASTEFUL BORDER OF SMILAX.

Behind the table were three stands of cut flowers of beautiful hues, and arranged in pyramidal form. To the right of the chancel, as you enter it, was a splendid flower stand, covered with vines and pots of flowers, the property of Mrs. A. H. Manning. To the left was equally an beautiful, and similar stand, the property of Mrs. B. F. Leete. The chancel platform itself was literally resplendent with beautiful cut flowers, most artistically arranged by the ladies. The baptismal font was especially beautiful. Calla lilies, roses, lilacs, white and colored flowers of all descriptions were in profuse abundance. One almost walked himself in fairy land as he faked amidst the beautiful floral arrangements and inhaled the delicious fragrance. Hanging in every window was a

BEAUTIFUL HANGING BASKET, while the window sills themselves were almost hidden by pots of the rarest flowers Reno could furnish. And yet Mr. Jenvey assures us that it only cost the church \$5 95. The rest was either given or loaned by friends of the parish. But we must not fail to the services. The music as rendered by Miss Quailfe was very fine. The whole choir seemed filled with the

SPIRIT OF THE DAY.

and sang accordingly. Mr. Jenvey's sermon was from Rev. L. 17, 18: "And He laid His right hand upon me, saying unto me, fear not; I am the first and the last; I am He that liveth and was dead; and behold I am alive forever more, Amen; and have the keys of hell and death." The theme was the dead, the risen, and the living Christ. The thought was, that the resurrection of Christ was an earnest of our immortality, and that this thought brightened and illumined and transfigured the whole of our lives. Without the hope of a blessed immortality, the duties of life were, in the main, dreary enough; but with it, they became heaven-sent blessings to train and develop us, and to fit us for the

JOYS OF THE HEREAFTER.

And not only this. The thought of immortality assures us that the loves and friendships of this life were not mockeries; were not heaven-born things to be enjoyed for a brief time here, but that they were eternal, and were to be carried on through all the long future. The services of the evening were especially enjoyable. The singing of the children was especially fine. Their carols were all full of the Easter theme, and was sung with a heartiness which showed that they entered into the spirit of the theme. Mr. Jenvey had so managed it that every beautiful flower which had been used in the services of the day was made up into beautiful bouquets and given to the children. Altogether it was a most enjoyable day, and reflected great credit on all concerned.

RETRADE Cold Company.

At a meeting of the stockholders of the Crystal Ice Co., held April 12th, the following officers were elected for the ensuing year: A. M. Wicks, president; R. P. Ferguson, vice-president; A. M. Wicks, D. J. Crowley, J. D. Parks and R. P. Ferguson, directors; D. J. Crowley, secretary; B. F. Bacon, Treasurer; J. D. Parks, superintendent.

The True Racket.

A Silver City, tramp stole a bottle of preserved tarantulas last Thursday and drank the liquor. It failed to have any disagreeable effect at all. The fellow must have a stomach like the man who drank the sulphuric acid. He said it didn't hurt him any, but when he blew his nose his breath made a hole in his handkerchief.

Artesian Wells.

We are informed by C. A. Nichols that the artesian well now being bored in Paradise valley has attained a depth of 100 feet. Water was struck in the well some time since, but it does not flow. Some delay was occasioned in boring by the non-arrival of tubing as soon as expected. —Silver State.

Reduction of Rates.

The bold Stanaway is circulating a dodger about town which invites attention to a reduction in rates by Wells, Fargo & Co.'s express company between California and Eastern States. They are going to close out the U. S. mails.

District Court.

The attention of the district court was taken up today by the case of the Pacific Mutual Life Ins. Co. vs. E. F. Reed et al. Default was entered against the defendants.

Still in Durand.

George Schultz has been unable to give bail and is still in custody in San Francisco. His bail has been reduced to \$150,000.

PERSONAL.

Judge King returned from Carson yesterday.

Pete Marker, of Washoe City, is in town.

W. R. Chamberlain returned from San Francisco yesterday morning.

M. C. Lake and A. J. Clark departed for San Francisco last evening.

Col. Allen, speaker pro tem. of the last assembly, went through to Carson yesterday.

Secretary of State Babcock and J. G. Chesley, the well known liquor merchant, were down on a fishing excursion yesterday.

J. D. Park, D. J. Crowley, R. P. Ferguson, of Truckee, and A. M. Wicks of Bronco, were in town yesterday. A meeting of the Crystal Ice Company was the cause of their presence in the river-side town.

Gen. R. M. Clarke returned from Paradise yesterday, and departed this morning for Carson. He says the mining outlook for Paradise is very encouraging, and he is of the opinion that the coming season will be a lively one in that locality.

Sam. Davis, of the Chronicle, was down from Virginia Saturday night, and took in the scene. Sam. waltzes as gracefully as a grizzly bear, and takes the widest swath of any single-handed dancer that ever slung a hoof in Reno. As a dancer, Sam. is immense—and so are his feet.

Easter Ceremonies.

Yesterday was Easter Sunday, the anniversary of Christ's rising from the dead. In consequence the Methodist and Episcopal churches were crowded at both the evening and morning services. The Methodist church was handsomely and tastefully decorated with flowers. Rev. Mr. McKelvey preached a sermon on the "Resurrection" in the morning. In the evening there was a sacred concert and recitations. The Easter ceremonies were both grand and beautiful. Special services were held in honor of the glorious event. In the evening a number of Easter carols were sung, after which Mr. McKelvey delivered a short lecture to the scholars of the Sunday school. Beautiful bouquets of flowers were distributed among the Sunday school children. At both the Methodist and Episcopal churches, the congregations were so large that many could not get seated and had to stand while many others could not get even standing room.

The Argonaut.

There is a vast deal of literature lying in our sublime landscapes, our queer developments of human nature, our peculiar industries, and our original institutions, civil, religious, and political, which the daily papers cannot gather, and only a very few would have room for if they could. Foreign papers garble and distort all our doings and all our lights and shades. The Argonaut is a necessity to this country, and under the able hands which founded it, it may live, as the Overland Monthly and other papers of a like high character, found it impossible to do. All who can should take the Argonaut, not because it is worth four dollars a year now, but believe it is growing and will in time, if it is successful, give them twice as good a paper for half the money.

Steamboat.

A GAZETTE scribbler visited this Beersheba of sageland yesterday and had a tip-top time. The baths, tub, steam, and shower cannot be excelled anywhere. The liquors at the bar are of the finest quality, the table-fare toothsome, appetizing and varied; the proprietors, gentlemen, and the charges very reasonable. For a place of recreatory resort, Steamboat is the place par excellence, and the proprietors, Messrs. M. and J. Rapp, are most genial and urbane hosts. The time-table of the V. & T. gives Reno excursionists the opportunity of going up in either the morning or evening. Or they can go up in the morning and stay all day.

All Satisfactory.

We accept the sympathy of our morning cotem. on the Ah Cheuey statement. By the enterprise of a GAZETTE reporter it was placed on our table a month before the Journal ever heard of it, but the GAZETTE has rather a tender stomach and cannot swallow everything. The paper was laid before Ah Cheuey's attorneys who requested that it be held. The GAZETTE had plenty of better matter, and it is hard to tell what we would have had to take in its place if it had not been put in the columns of our neighbor, so we are all perfectly satisfied.

Insane Commitment.

Eugene Newcomb was examined before Judge King this morning, and committed for insanity. His mania is very destructive. He has burned down a dwelling, barn and out-houses on his father's ranch on the Surprise valley road about sixty miles north of here, and almost broken the old gentleman up financially. He will probably be sent below to-night.

Temperance.

A GAZETTE scribe to-day learned that the new temperance lodge now being organized has upwards of 50 members, many of them our most prominent citizens. A musical and literary society will also form a part of the organization, which is to be effected to-morrow night at Odd Fellows' hall, over the Savings bank.

Chesapeake.

Passengers can now make the trip to San Francisco for \$14 25. The fare to Sacramento is \$13 75, and a ticket in the smoking-car on the Valjevo train costs \$1 50.

The Golden Fleece Mine.

[From the Enterprise.]

Professor Frank Stewart returned yesterday from an examination of the Golden Fleece mine in Peavine district beyond Reno. He reports the mine in a field of porphyry vastly wider and deeper than that in which the Comstock is found. Of the mine itself he says it is the most enormous silver-bearing quartz lode in the United States, and he believes in the world. One crosscut is sixty feet long and no wall has been touched at either end. Another crosscut of forty-five feet exposes a true hanging wall on the west end, but the east end is still in ore. The Professor says he selected some of the meanest looking ore he could find in different portions of the mine, and from his selections had three assays made, which were respectively, \$62.83, \$211.88 and \$69.12. The ore on the surface of the Golden Fleece are very rebellious, being charged with sulphide of zinc and iron, with lead, but there is no particular trouble in reducing them, as has been demonstrated with samples sent to Denver. The professor's belief is that, as porphyry has never in this state proved to be the home of base metal ores, a little sinking, say to 300 or 400 feet, will reveal solid sulphurets ore in the Golden Fleece, the same as are found in the Comstock. Indeed, old miners will remember that in places along the surface of the Comstock the same trouble with zinc and lead was had with base ores that the owners of the Golden Fleece are experiencing now. The true strike of the Golden Fleece is almost north and south, but a small chimney of trachyte about 450 feet in diameter has in one place disturbed the lode, causing it to assume a slightly crescent shape and fairly pulverizing the quartz where the trachyte encroached on the ledge. His final conclusion is that the probabilities of the Golden Fleece ledge are immense, and that its possibilities are inestimable. The lead is reached by two well-graded roads, it is only ten miles from the railroad, there is plenty of water near and wood is delivered at \$6 per cord. It is opened only about 200 feet.

A New Way to Collect Bills.

Saturday night a butcher attempted to collect a meat bill from a man in Stopher's saloon. Not getting the money, he went for blood, and put in two or three blows on the delinquent debtor. Other parties finally interfered and stopped this new method of collecting bills. The bill was not settled, however.

About Exhausted.

Mr. Leete, the secretary, has been so busy with other affairs that the relief committee have been unable to settle up their business. However, the funds are nearly if not quite exhausted and there remains but little to be done, beyond balancing the accounts.

To the Good People of Reno.

Having entered the field with the balance to extend for a share of the public patronage, it would perhaps be well at the start to state our claims to the above. I am not swayed by the fire, so claim no sympathy on that score. I believe it's the duty of the good people to give preference to old residents, provided all things are equal, but if Brown asks fifty cents for what Smith is willing to sell for twenty-five, on the grounds that he is looser by the fire and wants to get even, the trade will naturally go to the latter. Hence I say we have no claim on the people except on those who may wish to economize. If you wish to buy your wife a fine silk dress at all means go to Enrich. If you want a suit of fine clothes go to friend Nathan or a friend, but if you want a "goose yoke," rat trap or jack knife go to Yankee Dodge's, where a dollar will buy a basketful. Recollect goods just as square as though sold over a marble counter. A child that eagles up the names of the articles wanted, can buy just as cheap as an expert.

P. S.—Money will be refunded on all goods that do not prove as represented.

YANKEE DODGE & CO.

To Everybody's Interest.

The old man with shaggy beard, the middle aged man with his ambrosia chop side whiskers, and the young man with down on his face, will be interested to learn that the Coleman & Pecker have fitted up one of the finest shaving saloons in the state, on Virginia street opposite M. Nathan's clothing store. Everything about the place is new and tidy, and these gentlemen have few equals and no superiors in this state as tonsorial artists. Call and see them. apr14

Opened at Last.

I. Fredrick has at last got fixed up in Osburn & Shoemaker's drug store. He has one of the finest stocks of jewelry and silverware ever brought to this State. Mr. Fredrick is a pioneer in this business in Reno, and as such is fully aware of the wants of the people of this vicinity. Call and see him, and you can be sure you will be well treated. apr14

A Pioneer in the Business.

If your watch gets out of order take it to I. Fredrick's, the pioneer jeweler of Washoe, and he will soon have it put in running order, and further, if you want anything in the jewelry line you can find a large and elegant stock to select from. He can be found in Osburn & Shoemaker's drug store, Commercial Row. apr14

### THE NEGRO EXODUS.

The exodus of the colored people from the only home they and their ancestors have known for centuries is of the greatest interest to students of every phase of human life. If the emigrants settle in communities by themselves instead of scattering out among white settlements they will sink into a condition about as hopeless as that of their kin in Africa. There will be little to attract intelligent white men to their towns and those who do live among them will do so only for bad purposes. The population will run down the hill. Their superstitions will grow into a controlling belief, the same as religion does some of them now. They will have few virtues, the best of them and the worst will present an appalling picture of the depths of the human heart. Murders will be frequent, incest a thing to wink at and horse stealing a prime industry. The level of society will be so low that no conception of its depths can now be had.

### ANGORA GOATS—VALUABLE FELTS.

The mutton is as good, some say better than that of the sheep, and the pelts are much more valuable for tanning. The common goat skin is little better than the sheep skin, but the Angora skin is fine grained and very strong. Any experienced workman can tell by the feeling of the tanned skins whether the goats were half, three-fourths or seven-eighths Angora, also by the look, so striking is the difference. The skin is not so rough—it is fine, soft and tough. For strings and lace belt lacings, as well as for carriage robes and gloves, they are found to be excellent. About one-half the increase of every flock are males, and as they are not used for breeding, unless the mohair is very fine, they are killed at from six months to two years old for mutton and pelts. The half and three-fourths breed goat skins are now worth from fifty to sixty cents for tanning. The finer breed pelts are worth from one dollar to three dollars each for making into robes, trimmings, etc.

As the goats thrive in places where other stock cannot be advantageously raised, it would seem that many rocky canyons in California might be used for raising Angora goats, and a factory to prepare the skins for market would undoubtedly make money.—*Foodhill Tidings.*

Nevada is excellently adapted to this valuable animal and there are several large bands between here and Verdi as well as others elsewhere.

### EDITORIAL NOTES.

George William Curtis does not prefer Grant as Republican candidate for the presidency, but the vast majority of the party are of a different opinion.—*S. F. Post.*

The wish is father to the thought. The "vast majority" the Post speaks of consists principally of the "bread and butter brigade," the whiskey ringsters, and the Associate Press agents. They will find it very hard to manufacture anything like a unanimous sentiment that way. We do not believe it exists, or ever will.

At Vienna the Hungarian women are considered the prettiest and best dressed, the fair-haired Poles and Bohemians the most stylish, the Viennese the most coquettish and attractive, and the Croats the ugliest. The daughters of sunny Italy were in much favor in the capital of Francis Joseph before he lost them with their provinces.

The late dull times have driven many men from mercantile pursuits and the learned professions into farming. The majority seek the West, but the East is also feeling the good effects of the reduced price of provisions. In New England the farmers are more numerous than in any previous time within the last twenty years.

We would like to have seen Hon. Jo. Medill's face when he read this from the San Jose Herald:

The proprietor of the Chicago Times, Hon. Joseph Medill, is now in San Francisco making a personal and practical investigation of the Chinese problem.

He owes the Tribune, which has war with the Times on everything.

We give to-day the points of Prof. Frank Stewart's report on the Golden Fleece mine. The most important item in it for Reno is that he argues with Mr. Donahue that the formation is exactly like the Comstock, and will run into rich ore in a very little way. Read the report. It is glorious news, if true.

The Scotch snob, who has the honor of being the son-in-law to Queen Vic-

tor, has supplemented the "bias" dress order of his wife's provincial court by invading the constitutional rights of the Canadians. The Kanucks live too close to Uncle Sam's plain-talking family to brook this semi-royal tyranny. They are likely to make trouble for his brevet majesty.

The Austin Beville notes the return of Senator Farrell, who has been visiting San Francisco for the "benefit of his health." Its a peculiar coincidence that nearly all the members who "fell down" on their pledges were so economical as to save money enough out of their \$8 per diem to make long trips to the Bay. Most of them went for the "benefit of their health," too. Only a coincidence, that's all.

Eureka proposes to tax each and every dog two dollars. A good man with a good dog would cheerfully pay the tax, and the cur could be used as fertilizers. Let Reno have a dog tax by all means.

A Carson doctor went East on a visit, and while he was away all his patients got well. He says he has to begin life at the bottom again, and build up a new business.

The French government intends to present the Prince of Wales a complete table service of Sevres china, in return for his services in connection with the exhibition last year.

The furniture in the Grand Union Hotel, Saratoga, recently levied upon for unpaid taxes, was bid in by ex-Judge Lester, agent of the Stewart estate, who subsequently paid the amount of the levy.

The Bey of Tunis has opened an Arabic printing office. The director is likewise editor of the *Raid el Tuni*, the only paper that appears in Tunis.

The Belgian government has expelled Herr Heist, the German Socialist, who has been editing in Brussels an imitation of *La Lanterne*. He has also been expelled from France.

*Bullion* is a new journal published in New York for the sum of fifty cents per year. The low price makes it everyone's duty to take it.

A French physician has discovered a disease that only attacks bank clerks. What is needed is a disease especially adapted for hotel clerks—something like apoplexy or the cholera.

This is the time of year when the new gate item travels.

### California for Grant.

New York, April 11.—Ex-City Treasurer Widener of Philadelphia, says of the Times' political exhibit of yesterday: "I think the line is drawn too close in California, for the people there are for Grant, and Blaine's following is not worth mentioning. The people say: 'Between Kearneyism and the Chinese we will soon have no government, unless we can get a man who has backbone. Grant has that, and we are for him heart and soul.' The publication will help Grant greatly, because the conservatives will see that everybody is for him, and no one likes to be left out in the cold, so they will turn in, too."

A Times Philadelphia special says: A prominent newspaper man said yesterday: "I see Blaine mentioned as a possible candidate. I have it direct from that gentleman that in the event of Grant's name being proposed before the National Convention, Blaine will withdraw in his favor."

### The Strike.

The excitement at the sea-wall and at the California street lot has died away completely. The number of men at work at both places is about the same as for the past few days, some 130 laboring on the hill and 240 at the sea-wall. The men who are there are willing to work for the old price for the present, as they see no chance of obtaining more elsewhere. No action has yet been taken by the Workmen's committee looking to the annulment of the sea-wall contract, but the committee state their determination to bring the matter before the proper tribunal as soon as possible.—*S. F. Call.*

Professors Ch. Martins and E. Deor severely criticize Capt. Roudaire's scheme of converting a portion of the Southern Sahara into an inland sea. They say the scheme, if successful, would destroy the date culture, without exercising any favorable influence whatever upon the climate of Algeria. The area of the proposed "sea" would not exceed 5,100 square miles, and the vapors from it would be driven into the Sahara, as northerly winds prevail at Biskra and Tugurt.—*N. Y. Sun.*

The Southern negro exodus continues to excite great interest in the East. The New York Herald tersely sums up the situation thus: "That cotton is too cheap is the latest explanation of the negro exodus. Add, justice is too dear, and then strike an average as to get at the truth."
